

## Appendix

### About ECF Fairness Under the Sun

ECF Fairness Under the Sun, which is organized by Fair Trade Hong Kong and funded by Environment and Conservation Fund of the HKSAR Government, is an education programme aiming at raising the awareness of fair trade and climate change among schools and local communities.

#### Programme objectives

- Get students trained up as advocates of Fair Trade and sustainable development
- Introduce Fairtrade climate standard and carbon offsetting
- Demonstrate how Fairtrade can contribute to climate change mitigation
- Connect local communities with climate change and renewable energy
- Improve acceptance of solar power in Hong Kong

#### Programme details

ECF Fairness Under the Sun is a two-year programme which is launched in December 2018. There will be two cycles and below are the detailed timeline.

Period	Details
Phase 1: Ambassador recruitment and trainings	
Cycle 1: 12/2018 to 2/2019 Cycle 2: 9/2019 to 11/2019	Provide one-week exhibitions and seminars for universities to introduce the programme, local renewable energy projects, technologies and Renewable Energy Feed-in Tariff Scheme  Interviews will be conducted to select 20 students for trainings in each cycle.
Cycle 1: 3/2019 to 5/2019 Cycle 2: 12/2019 to 2/2020	Eight sessions of two-hour trainings will be provided for the selected students at weekends. Experts from green groups, academics, consultants, engineers and representatives of local grassroots organizations will be invited to be the guest speakers.
Phase 2: Community tours and education workshops	
Cycle 1: 6/2019 to 12/2019 Cycle 2: 1/2020 to 5/2020	Student ambassadors will guide the one-day community tours to showcase solar power facilities in Hong Kong and introduce the development of solar energy and concept of carbon offsetting. Each of the ambassadors have to finish at least two community tours.
9/2019 to 5/2020	Students ambassador will help deliver education workshops in secondary schools to introduce climate change mitigation local renewable energy projects. Each of the ambassadors have to finish at least one education workshop.
5/2020	Student ambassadors will receive the certificate of recognition upon completion.
